

Cyril Jackson Senior Campus ArtsHouse Residency

2018-2019 APPLICATION GUIDELINES

Background information

Cyril Jackson Senior Campus (CJSC) is a unique school offering, a diverse range of Year 11 and 12 courses, with an enrolment cohort from compulsory school age working towards graduation, to mature age students simply following their interests. The Senior Campus offers an alternative mature learning environment, priding themselves on accommodating difference, and leading the way in innovation, commitment to life-long education and building community partnerships.

The ArtsHouse project was developed as a creative space, offering opportunities for artists to collaborate and connect with students, staff and the community. The space consists of a private studio and a larger adjoining classroom that is used for personal practice, gatherings and workshops. The ArtsHouse building is set within the ArtsHouse Community Garden Inc. on the Cyril Jackson campus, helping to bring the community and school together. Current projects in the garden include; the development of a bush tucker, medicinal and fibre textile space, that will be planned and planted in consultation with knowledgeable Noongar representatives.

The ArtsHouse is a vibrant learning environment designed to bring real experiences to the students and the community. The Artist in Residence program was created to deliver opportunities for artists to share knowledge, collaborate, explore and provide mentorships to CJSC students. This platform offers a unique opportunity to all involved, finding a real solution for strengthening community relationships and developing opportunities.

CJSC offers a different approach to education, and is built on diversity. The Campus continuously seeks out ways to better support students and finds pathways that both engage and help them thrive. The commitment to working with artists in the ArtsHouse project is one example of this innovation.

The Artist in Residence Objectives
